

warehousing and procurement

burgessmarine
ENGINEERING EXCELLENCE

warehousing

To complement our other services to ship managers and owners, we provide a 24 hour, comprehensive, warehousing and logistics service. The modern warehouse is an H.M. Customs approved facility. Ships spares and equipment can be shipped, received, or held in store according to customer requirements.

With the designated space and personnel at hand we will save you money for all of your storage requirements. We have flexible pricing and a service which will be tailored to your needs as a customer and the feedback you give us.

Primarily located in Southampton's Western Docks (with additional storage space in Dover and Avonmouth) the warehouse has direct access to ships in port and provides a secure facility patrolled by dock security.

Our facilities and services include:

- ▶ Inside storage bays
- ▶ Outside racking and space for larger items
- ▶ Carpet storage racking
- ▶ Electronic inventory
- ▶ Customs bonded warehouse (Southampton 4575sq ft.)
- ▶ Vast knowledge of logistics (including air freight, containers, road freight)
- ▶ Local deliveries in Burgess Marine marked vehicles
- ▶ Production of hazardous paperwork/packaging
- ▶ Preparation of pallets suitable for transportation
- ▶ 24hr call out response
- ▶ Fast and efficient service for emergencies
- ▶ Separate unit with overflow storage space

procurement

We supply a wide range of ships spares, materials and chemicals and have the ability to source any products ranging from standard items such as steel, fasteners, sealants etc, to the more unusual items that vessels may require. Our vast experience enables us to source a wide range of items swiftly and at the best prices due to our large database of suppliers and manufacturers used throughout our national marine engineering business. All this can be done with very competitive pricing and no order is too large or small.

We will save you the time of having to go to multiple companies to achieve the same outcome. We have extensive experience and knowledge of the marine industry and can offer customers a fast and effective delivery service via our in-house logistics department; items can be shipped locally, nationally or globally with no destination being out of reach.

Burgess Marine routinely supplies to the marine industry:

- ▶ All forms of steel and aluminium
- ▶ Pipe and fittings (copper, stainless steel, mild steel)
- ▶ Welding consumables
- ▶ Anodes
- ▶ Bearings and v-belts
- ▶ Adhesives and sealants
- ▶ Boiler spares and components
- ▶ Valves and gauges
- ▶ Nuts, bolts, screws, fixings etc
- ▶ Oils, greases, solvents etc
- ▶ Cable
- ▶ Fasteners

“...We will save you money and time...”

We are an authorised distributor for C.C.Jensen off-line filtration products in the UK and a service agent for and supplier of Marinfloc equipment.
