

superyacht refit portsmouth

burgessmarine
ENGINEERING EXCELLENCE

Benefit from a devalued £ - Brexit means our refits are exceptionally good value

burgessmarine.co.uk

burgessmarine has over thirty years experience at the forefront of ship repair supporting both mechanical and structural repairs and refits to the commercial marine market, the defence sector and the superyacht industry in the UK and internationally.

Lord Sugar, quoted in the magazine 'Superyacht Owner' "my choice of Burgess Marine had been influenced by a recommendation from Sir Charles Dunstone, co-founder and chairman of Carphone Warehouse, whose classic motor vessel Shemara underwent a refit at the yard."

Superyacht Refits : Portsmouth, UK

burgessmarine operates a 1000T ship lift, in Portchester, at the very top of Portsmouth Harbour opposite Port Solent Marina. The footprint is ideal for Superyacht refit and repair works. The yard can comfortably accommodate up to two 60m vessels for either short, sharp refits or for lengthy periods of overhaul and lay-up. Recent projects completed in Portchester include, but are not limited to:

- ▶ M/Y 34m Brooke Marine - major refit; to include mechanical and structural works, and a new paint scheme.
- ▶ M/Y 38m Benetti - emergency pipe work repairs.
- ▶ M/Y 42m - fabricate and fit new main engine exhaust system. Fabricate and fit new steel crew access deck house and hatch.
- ▶ M/Y 44m Feadship - new steel transom, extension of two aluminium upper decks, new engine room; fleet of new engines, generators and pipe work installation.
- ▶ M/Y 55m Sterling Yachts - major refit including interior, exterior GRP mods and repairs and installation of new stabilisers.
- ▶ M/Y 60m Fr. Schweers Shipyard / Kusch Yachts - major refit and a new paint scheme (both above and below the waterline).
- ▶ M/Y 62m Feadship - main engine fuel pump refurbishment
- ▶ M/Y 64m Classic - complete rebuild; all structural fabrication (steel and aluminium), full mechanical and pipe work fit out.

burgessmarine has in recent years completed works on the footprint for M/Y Shemara, M/Y Lady A (ex M/Y Southern Cross III), M/Y Kirkland and M/Y Bystander.

What makes us different?

Unlike other UK yards we, at [burgessmarine](#) Portchester, can be entirely flexible from both a management and sub-contractor perspective. Both the refit of MY Shemara and MY Lady A were conducted in an 'owner managed' environment with [burgessmarine](#) providing core ship repair skills, yard services and project management whilst major packages of works were sub-contracted by the 'owners team' elsewhere. Such collaboration has proven both operationally effective and financially beneficial to all parties; it also ensures that the 'owners team' maintain control of both the project and the budget.

Your yacht, your terms.
